

VELVET Power

The most versatile Bicolor panel
Hard and soft light native

GREEN & DURABLE

WEATHERPROOF

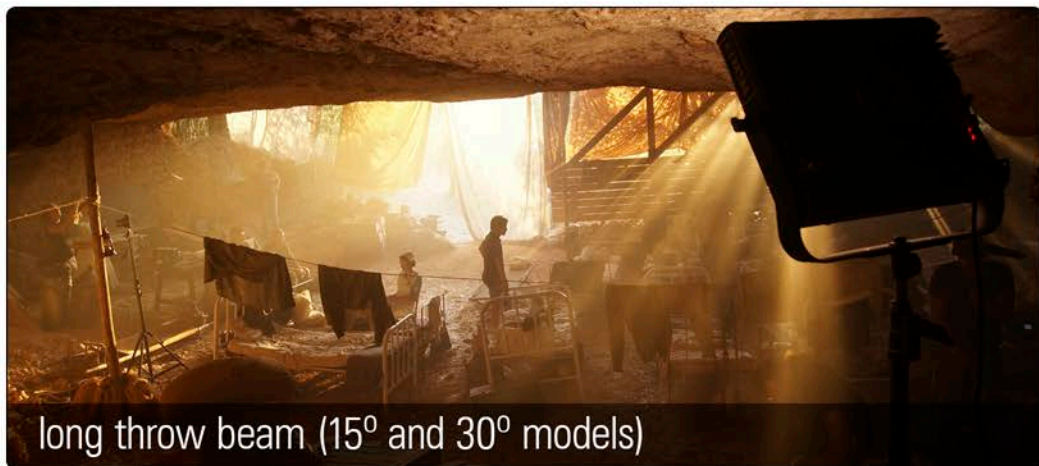

15°/30°
long throw beam
completely silent fan free operation

spot beam

VELVET Power series can be ordered with different beam angles

Producing a concentrated 30° beam from a silent, dust and weatherproof fixture that instantly sets up and adjusts.

The concentrated output is powerful enough to be bounced, shaped, or softened with traditional grip, VELVET hard diffusion or foldable Snapgrids and Snapbags. VELVET's innovations in high-efficiency LED technology produce real benefits:

- The best lux/watt ratio of the market
- Completely silent, VELVET Powers uses no fans
- Weatherproof IP54 operation
- Full power and extended runtime off batteries

100% real output even with standard V-lock or Gold batteries

powerful, silent

VELVET Power use no fans

VELVET Power can be powered with any universal DC battery or AC.

Using the best quality LED, exclusive electronics and custom designed aluminum heat-sink the LED is kept in the optimum temperature to last 50,000 hours

Ready to rig

- Yoke with ergonomic just one hand tilt lock
- Ball head rapid mounts
- 1/4-20" threads located on top and bottom
- 4 holes for safety sling or to hang the fixture

studio series

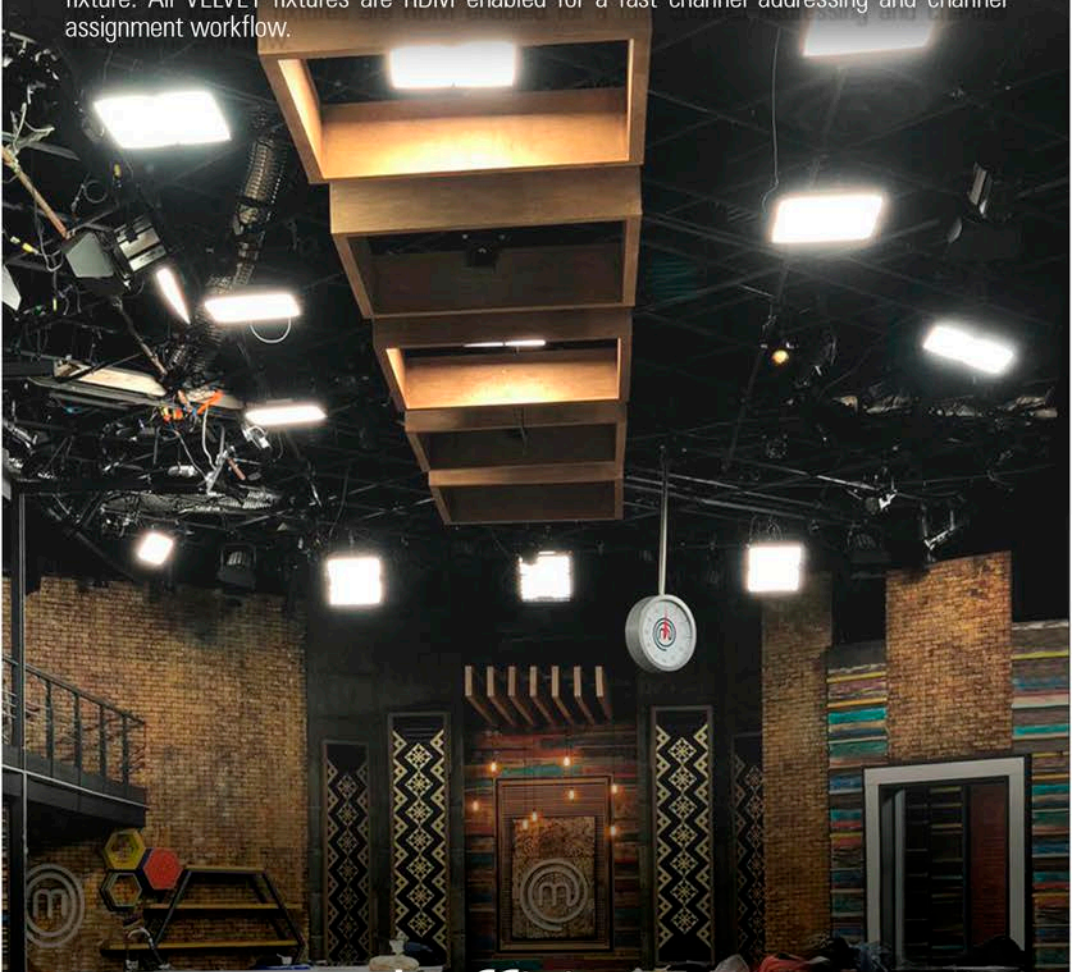

Advanced DMX Master/Slave

DMX remote control even without a controller!

With the Master-Slave function you can link several units and operate without a console. The Master will be the controller for the other units.

Bi-directional DMX RDM

The perfect solution on Studio simplifying the assignment and channel addressing of every fixture. All VELVET fixtures are RDM enabled for a fast channel addressing and channel assignment workflow.

green and efficient

VELVET propose and develop innovative technologies to produce more energy efficient luminaries, to give more creative possibilities and to speed up the lighting setup and adjustment process

All our "made to last" lights are built only with recycled aluminum which reduces the carbon footprint.

fast & hardy

Robust 100% aluminum body and IP54

Made and designed in Barcelona to endure the toughest working conditions on any situation because a durable light is a green light.

Perfect color rendition and consistency between lamps

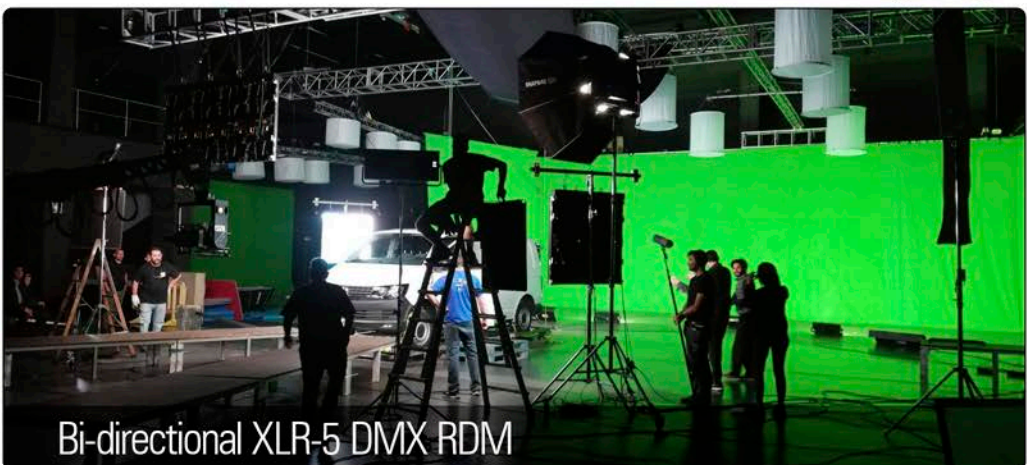

Lightweight and noise-free

two panels in one

VELVET Power series is incredibly efficient and versatile. Its concentrated beam of 15° or 30° can be easily modified by special VELVET filters to convert it into a standard softlight panel.

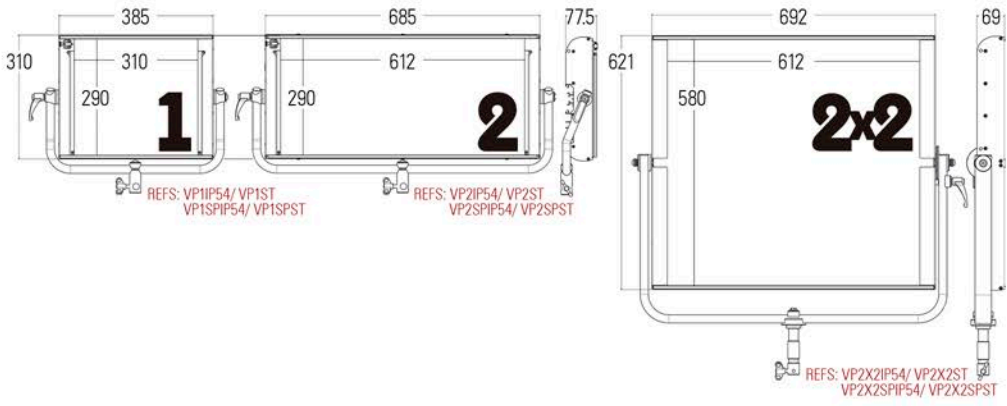

proven high efficiency

VELVET Power is as efficient as to deliver up to 23000 Lux at 3 meters drawing only 340W and can be used with batteries or any standard AC power worldwide.

Bi-directional XLR-5 DMX RDM

COLOUR TEMPERATURE	Continuously adjustable from 2.700K to 6.500K in 100K steps					
LIGHT INTENSITY	Dimmable 0 to 100, smooth and flicker-free					
BEAM ANGLE/ MODELS	VELVET POWER SPOT 15°/ VELVET POWER 30°					

LED RATED LIFE & TECHNOLOGY More than 50.000h. Selected BIN LED Core unit + Optic diffuser + CPU software control

OUTPUT FREQUENCY 16KHz/ flicker-free up to 2000fps
OPERATION TEMP. & COOLING From -20°C to +40°C with no-noise, fan-free passive cooling
IP PROTECTION IP54 Location models and IP51 Studio models

RIGGING OPTIONS Aluminum yoke with 16 female combined with 28 pin, swivel ball head, pole operated yoke...
CONSTRUCTION & FINISH Black anodized extruded aluminum and black powder coated sheet aluminum

5600K photometrics

VELVET Power

made to last

The most versatile panel: Hard and soft light in a weatherproof fixture

shock-resistant 100% aluminum body
quick set-up and adjustment
15° or 30° long-throw beam + filter modifiers
completely silent fan-free operation

2700K - 6500K in precise 100K digital steps
dual DMX RDM XLR-5 (Studio version)
weatherproof IP54 (Location versions)
V-lock or Gold battery mounts
